Cotecna Japan plays a vital role in supporting international trade and quality assurance within the Japanese market. Since 2005, Cotecna Japan has offered customized inspection, testing, and certification services that contribute to the safety, compliance, and efficiency of supply chains operating in and out of Japan.

While Cotecna operates extensively across Asia, this document focuses on our services and presence within Japan.

Cotecna's Presence in Asia

Cotecna has established an extensive network across Asia, supporting businesses in safely and efficiently conducting their operations.

Key offices are located in Japan, China, Indonesia, Malaysia, the Philippines, Singapore, South Korea, Thailand, and Vietnam, providing locally tailored services.

The Asian market is a hub for diverse industries such as manufacturing, agriculture, and electronics, playing a vital role in the global supply chain.

Cotecna's Asian network plays a crucial role in ensuring product safety, improving quality, and ensuring regulatory compliance, ultimately connecting businesses and consumers worldwide.

Service Offerings

Cotecna Japan offers comprehensive inspection, testing, and certification services across key industries, including:

Agriculture and Food

We provide tailor-made services to support stakeholders throughout the agricultural supply chain, including producers, processors, traders, and logistics providers. Our services include:

- > Weighing, tally verification, and size measurement
- > Sampling and analysis
- > Loading and unloading inspections
- > Draught surveys

Minerals and Metals

Cotecna offers independent inspection and testing services for mineral and metal commodities, supporting clients at various stages of the supply chain. Key services include:

- > Bunker surveys
- > Cargo tally verification
- > Damage cargo inspection
- > Pre-shipment inspection
- > Warehouse intervention

Consumer Goods

Cotecna provides comprehensive inspection services to ensure consumer product safety and quality standards. Our services cover:

- > Initial Production Inspection (IPI)
- > During Production Inspection (DPI/DUPRO)
- > Final Random Inspection (FRI)
- > Pre-Shipment Inspection (PSI)
- > Supervision of cargo and container loading

CSR Audits

Cotecna Japan offers APSCA (Association of Professional Social Compliance Auditors) audits to support businesses in ensuring ethical practices, social compliance, and labor conditions across their supply chains.

Government Programmes

Cotecna Japan supports international trade through government-mandated inspection and verification programs. These include:

> Indonesia (IVP)

Import Verification Program (IVP) – Ensures compliance of imports with Indonesian regulations.

> The Philippines (PSI)

Pre-Shipment Inspection (PSI)

> Various Countries

Verification of Conformity (VOC) programs (including Congo, Ivory Coast, Egypt, Ethiopia, Gabon, Iran, Zimbabwe, Nigeria, Saudi Arabia, Somaliland).

Key Technologies and Innovations

Cotecna Japan is committed to providing services that incorporate technological innovations, such as:

> Digital Audit Platforms

Enabling efficient and accurate audits.

> Remote Inspection Technology

Facilitating remote product testing and inspection to save time and reduce costs.

> Advanced Analytical Equipment

Supporting accurate data acquisition for food and consumer product testing.

Client Testimonials and Success Stories

Cotecna Japan has received the following feedback from its clients:

Major Retailer

"Through quality and social audits, our supply chain management has improved significantly, leading to a substantial reduction in quality issues."

Plastic Parts Manufacturer

"The accuracy and speed of Cotecna's inspection service have greatly contributed to enhancing our quality assurance efforts."

Recycled Product Trader

"We truly appreciate Cotecna's flexibility in accommodating urgent requests and sudden schedule changes."

Cotecna's Growth and Expansion in Japan

Cotecna continues to strengthen its presence in Japan by expanding its inspection, testing, and certification services. Since establishing Cotecna Japan in 2005, the company has enhanced its capabilities to support international trade, including agriculture, minerals & metals, consumer product inspection, and compliance auditing, with a particular focus on SGP (Supplier Guidance Principles) audits.

In recent years, Cotecna Japan has actively pursued new service developments and client partnerships, contributing to improved quality control, supply chain transparency, and regulatory compliance across a wide range of industries in Japan.

Call to Action

Cotecna Japan offers extensive support to help Japanese businesses strengthen their competitiveness in the global market.
